

DENTISTRY 2026

World Congress on
Dentistry & Oral Health
November 12-13, 2026, Singapore

ABOUT US

Welcome to the World Congress on Dentistry & Oral Health – Dentistry Conference 2026, taking place on November 12–13, 2026 in Singapore City, Singapore.

It is our great pleasure to invite researchers, clinicians, academicians, dental professionals, industry experts, and students from around the world to join this prestigious global gathering dedicated to advancing innovations in dentistry and dental science.

This conference aims to provide an international platform for the exchange of the latest research findings, technological developments, and clinical advancements in the field of dentistry and oral health. Through keynote lectures, scientific sessions, panel discussions, and networking opportunities, participants will have the opportunity to share knowledge, discuss emerging trends, and collaborate with leading experts from diverse disciplines.

WHY US?

Choose our conference for its global networking, expert speakers, latest dental innovations, and valuable opportunities for professional growth all in one place.

- Latest Innovations: Discover advanced dental technologies and research
- Expert Speakers: Learn from globally recognized professionals
- Networking: Connect with international peers and industry leaders
- Skill Development: Gain practical insights and clinical knowledge
- Global Exposure: Experience an international platform in Singapore

 **DENTISTRY CONFERENCE 2026**

DENTAL PRACTICE

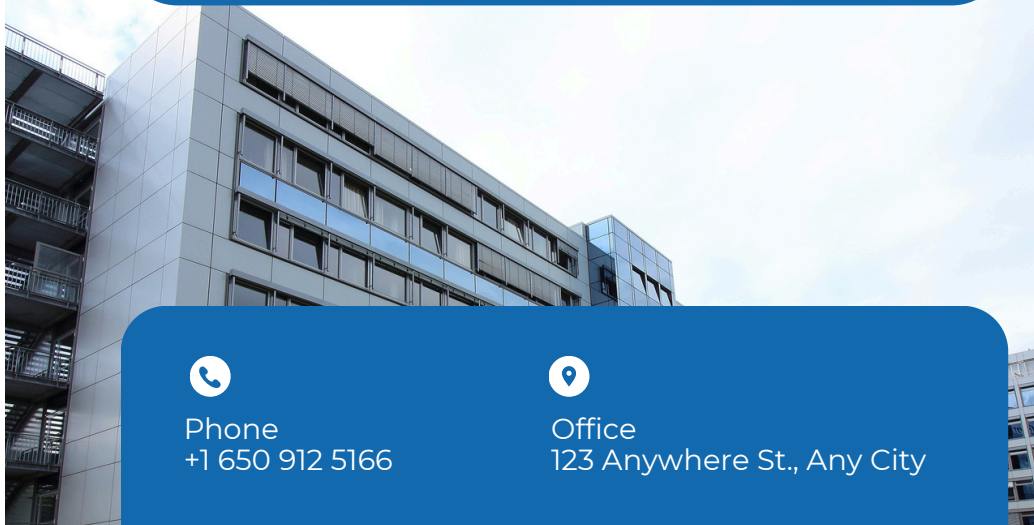

01. Hands-on Learning: Gain practical insights through workshops and case studies

02. Career Growth: Enhance your professional profile and opportunities

03. Global Exposure: Experience an international platform in Singapore

BEST DENTISTRY

The best dental care refers to high-quality treatment that combines experienced professionals, modern technology, and effective procedures to maintain healthy teeth and gums while improving both function and appearance. It focuses on prevention, accurate diagnosis, and advanced treatments to ensure a safe, comfortable, and long-lasting oral health outcome.
